

BIO

The vision of Frank Robuck, Mark Barker, Frank Morisey and Michael Peele was to combine their collective experiences and create the preeminent multifamily development and construction company based in the Triangle region of North Carolina. This shared vision is centered on faith, relationships, and growing a company that positively impacts its employees, investors, affiliates, residents, and community.

NorthView Construction provides construction related services to the development company, NorthView Partners. With a focus on wood frame, residential, multifamily construction, the Northview Construction employees have been involved in the construction of over 8,000 multifamily homes in varying designs including two-story walk-ups, three and four-story garden buildings, high density urban infill communities with structured parking, as well as repositioning existing properties through complete renovation. NorthView Construction partners with many of the most trusted and reputable suppliers and subcontractors in the industry.

THIRD PARTY CONSTRUCTION

While NorthView Construction was created to construct the communities of NorthView Partners, it also serves as a general contractor on residential multifamily communities for other select developers. These developers understand the value of open and honest communication received when partnering with NorthView Construction, and trust that their interests are protected when they choose NorthView Construction as their general contractor.
